1. INTRODUCTION

Education is a life long process. It does not stop at any particular age. This is interpreted as a continuing education or continuous education. The conventional system of education was proved inadequate to accomodate the growing needs of the Indian Society. Therefore, the system of distance education has emerged as an effective alternative to the conventional system of education. Distance Education system should cater to the needs of those who wish to improve their knowledge and skills.

Main Objectives of Distance Education Institutions

- a. To provide higher educational opportunities to the people who were deprived of the same earlier.
- b. To Promote professional efficiency for the in-service candidates.
- c. To meet the challenges of a changing society.
- d. To provide wider opportunity to the youth who are not able to join in regular colleges due to various reasons.
- e. To provide high quality of education with minimum expenditure.

With the above motives, S.V.University introduced Correspondence courses in the year 1972 to extend the frontiers of academic excellence beyond its campus. This Institute of correspondence courses (ICC) was upgraded as Directorate of Distance Education (DDE) in April 1995 as per the UGC norms. At present, the Directorate of Distance Education is offering B.A., (Regular and Open University System) B.Com., (Regular and Open University System) B.LI.Sc., B.Ed., (IIIrd Methodology) P.G.Diploma in Industrial Relations and Personnel Management, PG Diploma in Guidance and Counselling, P.G.Diploma in Consumer Education and certificate course in Library and Information Science (CLISc) apart from the following Post Graduate Courses .
